REPORT OF THE TRUSTEES OF THE JAMES A. TUTTLE LIBRARY

The increase in circulation to 11,997 volumes, and the purchase of 117 children's and 153 adult books is reported by the Trustees. Four visits of the Bookmobile made available 175-200 books for circulation at each visit. Upon application to the Librarian books of non-fiction may be procured from the State Library.

National Library Week was celebrated more extensively than usual as this year marked the fiftieth anniversary of the James A. Tuttle Library. Posters and window displays were arranged by the Girl Scouts and pupils of the Elementary School with the assistance of Miss Jane Pratt. An essay contest was sponsored for pupils of both schools with prizes of books donated by various organizations. Miss Ethel Muzzey prepared a history of the Library which she presented at a public tea served at the Library. A film and story hour were provided for the enjoyment of the children. The Art Club and Mrs. Ralph Little's Art Class arranged exhibits for this occasion, and also displayed paintings in the reading rooms during the year.

Gifts of books and magazines were gratefully accepted from the following: Miss Shirley Lane, Miss Ada Smock, Miss Ethel Muzzey, Mr. and Mrs. Hiram Johnson, The Garden Club, Mrs. Dorothy Bean, Mrs. Otis H. Tuttle, Mrs. Marie Nicklaus, Mr. Douglas Black, Mr. William Hurlin, Mrs. A. M. Swett, Mrs. John McCabe, Judge Abraham Lurie and Mrs. Guy Tibbetts.

A summer reading group was organized with merit awards and membership for 51 children in the Library Club of America.

The State Library Commission made available a scholarship of \$75 to enable the Librarian to attend a three week course at the University of New Hampshire.

A new bulletin board has been put into use. The front steps at the sidewalk have been rebuilt.

A public library can be of great service to a community. The Trustees wish to encourage the extent of its usefulness and welcome suggestions to make this possible.

Gentlemen:

The activities at the Community gym for the year 1958 were as follows:

Used by school for both boys and girls basketball teams for practice, and for school league games, also used for Alumni games and by Town Basketball Team for games and practice sessions.

Weekends, it has been used some by local boys with proper supervision.

New locks were installed on all doors, as old ones would not hold and doors would not stay closed.

Permission was granted for use of gym by Kindergarten till cold weather, or until Christmas. Since room was finished on upper deck, it is being used by Mrs. Helen Johnson for the Kindergarten from 1:00 p.m. till 2:30 p.m.

Now this large room has been finished, it is open for use by all local organizations as a meeting place, also for use as a game room.

COMMISSIONERS' REPORT

The Precinct has had a good year in spite of some rather expensive repairs to the water system, including replacement of the hydrant on lower Elm St., with a new 5" hydrant. The water system is in good shape and we do not contemplate any major changes this year. We have reduced the debt considerably; paying Note No. 2 to the Trustees of trust funds Dec. 31st., thereby saving interest. The collection of water rents continues to be a problem, but we will make every effort to reduce the list of delinquent customers.

Your Commissioners felt that because we had a good year we would not ask the Town for reimbursement of Fire Dept. expense to April 1st., when the Fire Commissioners took over the control of the Department.

Agreeable to the authority granted by the 1958 annual meeting, the following projects were carried out at Campbell Pond:

1. Completed 2500 Ft. of new road, giving access to the north side of the pond.
2. Effected the sale of 100M bd. ft. of selectively marked lumber.

3. Planted 1900 red pine in the brush-cover area, northeast of and adjacent to the pond.
4. Released the red pine planting from competing sprout growth.
5. Pruned white pine crop trees to 17 ft. on 3.5 acres of the 30 year plantation.
6. Acquired 6/10 of an acre south of the dam from Florence E. French, permitting access to east side of the pond; and installed a culvert in the outlet for road approach to the east side of pond.
7. Investigated the acquisition possibilities of additional watershed area from abutting landowners.

Projects recommended for 1959 in the Campbell Pond area:

1. Plant about 1000 white spruce on the low ground of the sprout area adjacent to the pond.
2. Remove hardwood on west shore of the pond within budget allowance.
3. Clean out brush and chemically treat stumps to reduce subsequent sprout growth on pipe line R/W from pond toward village.
4. Acquire additional watershed area (about 80 acres) at a fair market price when land becomes available; the Commissioners to be given special authorization to act in effecting its purchase from regular budgetary funds.

We would like to make the following recommendations:

1. That the Precinct Tax be reduced to 2 mils.
2. That 75% of the established water rates be collected.
3. That the Commissioners be authorized to continue with the improvement of the Campbell Pond area.

Respectfully submitted,

Lester A. Hill

SUPERINTENDENT'S REPORT

TO THE SCHOOL BOARD AND CITIZENS OF ANTRIM:

It is a pleasure to submit my fifth annual report for your consideration.

September registration in the Antrim schools was as follows:

ELEMENTARY		GRADES 7-12	
Grade I	19	Grade VII	15
Grade II	17	Grade VIII	15
Grade III	20	Grade IX	20
Grade IV	18	Grade X	23
Grade V	27	Grade XI	8
Grade VI	17	Grade XII	10
<hr/>		<hr/>	
Total	118	Total	91

This is an increase of 19 in the elementary and 7 in the high school building.

This increased registration has caused expenditures for new seating equipment in both buildings. However, the high school building is in dire need of new seating and should be given consideration in the near future.

There were nine tuition pupils registered in the high school: seven from Bennington, one from Stoddard and one from Hancock. Two from Bennington have left school at this writing.

1956—13 Graduates

Ten graduates started some type of post-secondary education—3 have dropped out. One is deceased, one is in the armed forces, and one is working in industry.

1957—9 Graduates

Two graduates have started some type of post-secondary education. Four are working in industry, two are married, and one in the armed forces.

1958—7 Graduates

Four graduates have started some type of post-secondary education. One is in the armed forces and two are working in industry.

A very high percentage of the graduates of Antrim high school in the past three years have continued their education in one form or another. This speaks well for all those responsible for the guidance of these graduates as well as for the initiative of the graduates themselves.

To arrive at an accurate per pupil cost figure presents a very real problem when the seventh and eighth grades (which are considered to be elementary pupils) are housed in the same building, having the same staff, and purchasing done on the basis of the total enrollment. However, we have pro-rated the figures on the financial sheet as accurately as possible and find that it is approximately \$551 per pupil in grades 9-12 and \$331 per pupil in grades 1-8. The State average costs based on the same expenditures are \$437 for grades 9-12 and \$262 for grades 1-8. For the school year 1958-59 we are pro-rating expenditures on a different basis and expect to stay within the \$551 per pupil cost for the high school although the cost of operation has increased considerably.

The district is grateful to Sterling's Esso Service for furnishing a refrigerator for the use of the noon lunch program and to the Public Service Company for furnishing an electric stove for the Home Economics department. These are furnished at no cost or obligation to the school district.

A very great effort has been made to clear up transportation problems of previous years. The towns of Antrim and Hillsboro are operating joint bus lines for school pupils. By this method of operation both communities are able to effect considerable savings on transportation. It involves very careful scheduling and both schools have been very cooperative in working out time schedule problems as they arise.

With the addition of one teacher in the high school it has been possible to meet the requirements of the new high school standards set up by the State Department of Education for the school year 1958-59. We have met the required offerings in the Academic area by adding General Math, General Science, and French III to the course of study. We have met the required offerings in the Fine Arts area by adding Arts and Crafts, and Music Appreciation to the course of study. At the present time we are approved to teach three years of shop work. If we can work out with the State Department a plan for approval of the fourth year of shop, we should continue to meet the standards with no further problems.

It has, again, been a pleasure to work with the citizens, School Board, teachers and pupils of Antrim, and I wish to express my appreciation for their fine cooperation and interest in their schools.

Respectfully submitted,

NORMAN R. HARTFIEL

REPORT OF THE FIVE TOWN COOPERATIVE SCHOOL STUDY COMMITTEE

Your committee has devoted the past year to a further study and review of all of the cost factors relating to the Crotched Mountain Cooperative School for the five towns in the area participating in the study. It has also arranged with your representatives to initiate legislation at this current sitting of the legislature to provide for a more flexible basis for distribution of operation and debt service costs among the five towns to arrive at a more equitable distribution. Assuming that this legislation is enacted, your committee feels that the five towns would be in a good position to form a school district and operate a cooperative school.

The committee feels that a cooperative school could offer facilities and curriculum equal to the educational facilities now available to the majority of the towns within the group on a tuition basis. Under the present circumstances, your study committee feels that the added cost to the participating towns to establish and operate such a school, particularly during the early years when the construction cost would have to be amortized, would not be warranted at this time. Therefore, despite the advantages of ownership and representation, the committee does not recommend that the five towns take action at this time.

If in the future the towns now taking students from this area on a tuition basis are unable or unwilling to continue that practice, your committee would strongly recommend the formation of a cooperative school district to solve the problem. It is also felt that the study and preparatory work which has been done by this committee would be of great value under such circumstances and would recommend that the towns authorize the continuance of this committee so that prompt action could be taken in the event that conditions change from those now existing. This committee would continue to meet during the year and would report again at the annual meeting date.

Respectfully submitted,
FIVE TOWN COOPERATIVE SCHOOL
STUDY COMMITTEE
